TRANQUIL MAKEOVER AT HAMPTON INN DAPHNE

Daphne, Ala.—With a fresh new look that is both calming and contemporary, the recently renovated Hampton Inn Mobile-East Bay/Daphne is a great place to put your feet up—in style. Lee Gayle, Regional Manager, said the \$750,000 makeover transformed the hotel’s guest rooms into “highly functional relaxing getaways. The soothing color palette, modern art statements and contemporary furnishings invite comfort and tranquility.”

With creative supervision by property owner James G. Wilbourn, the renovation was designed by Hospitality Contract Services. “The warm and inviting darker wood tones ground the room and complement the calming affects of the tranquil blue and green color scheme,” said Nancy Sanderson, company spokesman. “The simplistic room lighting enhances the design aesthetics with a modern look.”

The redecorated guest rooms and suites feature 32-inch flat panel LCD TVs, refrigerators, microwaves, large work desks and complimentary high-speed wireless Internet access. Each day begins with a complimentary continental breakfast, and guests are treated to a relaxing evening reception Monday through Thursday.

Hampton Inn Daphne is located directly on the East Bay, giving guests a breathtaking view of the bay at sunset. D’Olive Creek meanders around the east and north sides of the property creating a serene, natural environment. The hotel grounds and the seven-mile Gator Alley Boardwalk that runs adjacent to the property are ideal for bird watching and alligator sightings.

Hampton Inn Mobile-East Bay/Daphne is managed by Inn Serve of Meridian, Miss. For more information on the property call 251.626.2220 or go to www.mobile.eastbay.hamptoninn.com
